

Problem Set 7E

You will need to submit the `ps7e_answer.tex` file containing your grading explanation to the Stellar assignment “Problem Set 7E – LaTeX Template” by **Thursday, December 8th, 11:59PM**. Your grade for Problem 2(t) in Problem Set 7 will be based on both your solutions and the grading explanation.

Problem 7E-1. Please write a short explanation of your pseudo-code for Problem 2(t) in Problem Set 7. Assume the grader is familiar with the problem and with the staff solution. If your solution is very similar to the official solution, please state that, and point out and explain any differences. If your solution is correct, but very different from the official solution, write a brief explanation to convince the grader that your solution is correct. If your solution is partially correct, point out the parts that you got right, and explain your mistakes.
